

My Christmas Story

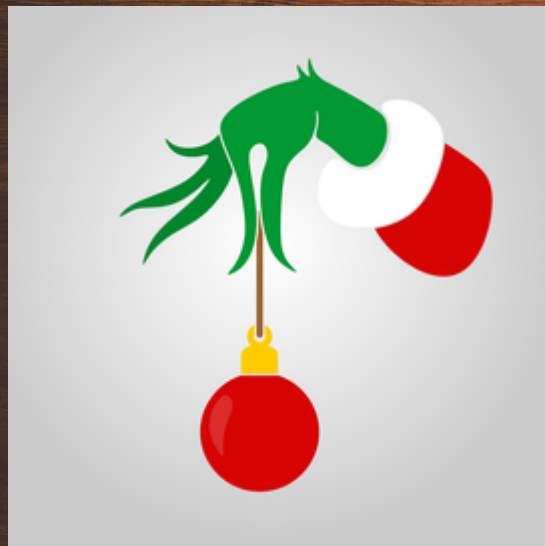

Christmas

It all started a long time ago, early in the long-clad mountains.
Grinch sat down by the fireplace with his puppy Rudolf and
drank cocoa.

Then an unexpected guest broke through the door from nowhere. It was Grunch. His brother and he came from Rome where it was warm and good. Clearly Grunch didn't come here right here for himself, he came to destroy Christmas because it turned out that Grunch didn't like cold weather, snow and Christmas. When the Grinch heard such news, he even jumped into the air and shouted. Grinch asked Grunch "Why don't you like Christmas?" Grunch just told that he don't like it and has no reasons. And then Grinch began to explain what a wonderful time Christmas is.

After a while, Grunch realized that destroying Christmas would be a horrible idea, so he decided not to destroy Christmas.

THE END

My Last Christmas

Every year I spent Christmas with my family. Last year we didn't have a Christmas tree. We had Christmas advent calendars, and Christmas stockings.

Me and my family decorated our house with Christmas lights. We baked Christmas cookies and opened presents.

Last year there wasn't a lot of snow.

We didn't get a Christmas tree last year because our cats knocked it down and played with the ornaments. But they also sometimes slept under the tree. Their names are Kutis and Tofis. Our cats behave better this year even if we have a Christmas tree.

Lastly, I wish everyone to spend Christmas with their families. Merry Christmas to everyone!

Magic Christmas Story

Magic Christmas Story

One beautiful winter day I and my friend Emily played with snow , drank hot chocolate, build a snowman and had a good time. Soon we heard a strange sound going from a forest. Together we came to the tree and saw two little white cats. Cats were so friendly and cute! Cats were lost. We gave them names - Lola and Molly. It was really cold, Lola and Molly wanted to eat. Big snow started soon and cats ran away in the forest. My family thought what to do with those cats.

Next day I took some food for Lola and Molly. They were really happy! I spent all day long with my new friends, we played and had fun. I really wanted to take cats home, but my mom didn't allow.

It was Christmas Eve. I thought only about Molly and Lola. Suddenly somebody called in the door. I had no idea who was that. A women came into my room. She had a big box and gave it for me. I opened it slowly and I found Lola and Molly inside. I was so surprised and happy! I played with my pets all the time. It was the best Christmas.

Now my cats have a good house and loving family.

I wish you a good time with your families and enjoy all the moments!
Merry Christmas!

A Christmas trip by
a time machine

*Merry
Christmas*

A Christmas trip by a time machine
Railey and her brother Eddie lived with their grandparents in a village. Railey was 12 years old and Eddie was 10. Their parents worked abroad and the kids hoped to meet with Mom and Dad at Christmas. But the parents could not return. It was the saddest Christmas in their life. Railey and Eddie were unhappy and angry.

They decided to break into their neighbour
Kreb's barn next to the forest. There was a big strange machine in the barn. Eddie opened its door and they got inside. There were lots of buttons, a steering wheel and two helmets. Railey and Eddie put on those helmets. A screen with the words "1326" lit up in front of their eyes and the machine started to roar. The children rushed out of the strange machine. What a surprise! The barn was gone!

The snow was gone and winter was over! The kids were in a middle of a old-time town in a hot summer. Houses, streets and people looked different.

The kids saw some knights with shields and swords in hands. Everything looked like in the movie. But it was not a movie. The armored knights started to fight and kill each other with their bloody swords. Railey and Eddie got terrified and rushed back to their machine.

The kids were so happy when they got back to Mr. Krebs' barn! They realized it was a real time machine that transported them from the snowy December morning of 2021 to the hot summer of 1326! Suddenly Railey had a crazy idea to travel back in time to the day when their family was still together. She would ask Mom and Dad not to go abroad. Oh, how great that would be! It was the most important wish of Railey and Eddie when they had dinner with their grandparents on Christmas Eve.

My Magical Christmas Dream

My Magical Christmas Dream

I woke up in the middle of the forest. Firstly, I was little scared but then I realized that I have to find a way out. Then I finally stand up and tried to walk and maybe find the way out of the forest. It was very dark and cold.

Then I saw a light between snowy trees. I was very curious and I started to go closer to the light.

When I came closer I saw Santa Claus. He was tall with red jacket, red pants and long beard. He looked at me and finally said "You found the way out, just go to that house and you will be escaped". I reached the house happily and then woke up in my bed. It was Christmas morning.

Christmas greeting

I hope you all will have a great holiday, good gifts and unforgettable time with your family or friends.

Santa's Problems

On a cold winter night, 3 kids Mary, Luke and Michael were looking at the stars. Mary noticed something strange.

-Look! – She pointed at something flying towards them.

It landed in their backyard. The 'something' stood up.

-SANTA!! – they screamed.

-Shh! – Santa calmed them down.

-What happened!? – Luke whispered
The kids and Santa talked. Turns out, Santa's sled crashed.

-Oh no! We have to help! – the kids said.
They started looking.

-We looked everywhere! – Mary said.

-I know where the sled could be... –
Michael spoke.

They went to that place. It was a junkyard.
They dugged for hours, until they found something...

It was Santa's sled! Santa gave them something and disappeared into thin air. It was something the kids could never forget...

I wish you lots of presents. Have a joyful, peaceful and merry Christmas and a happy holiday!

„My Christmas Story“

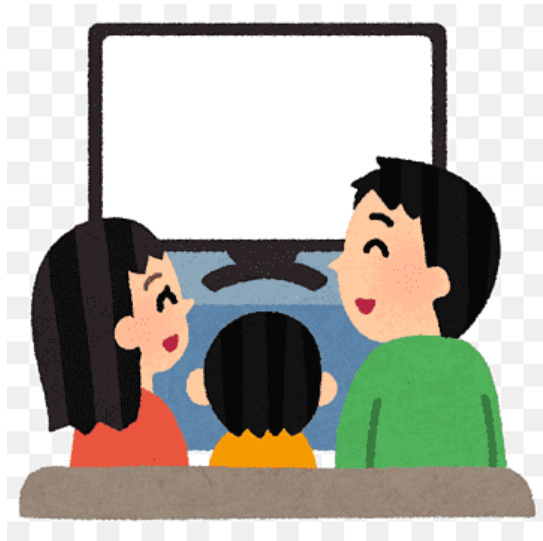

Once upon a time there were two boys - one of them was bad and another was very good. Every year they wanted a good present, but they didn't know that Santa has a list of kids. His elves always check on kids if they were good or bad.

Bad one always wanted a good present so he wrote a long letter, another kid didn't write so long letters because he knew that Christmas is not only about big presents, but is about family too. That's why the good one always told that you shouldn't only care about presents, you should care about your family.

The next day brothers put their letters under the Christmas tree. The good one went to another room and started watching a Christmas movie with Mom and Dad and had a fun talk on a sofa. However, the bad one didn't join them, he played computer games.

On Christmas morning kids opened their presents. There was a very interesting adventure book and Christmas socks. Brothers understood the meaning of these gifts.

I wish you a Merry Christmas, fun holidays and let's spend more time with your family!

My magic Christmas

My magic Christmas

It was a cold Christmas Eve. Me and family were watching a Christmas film on TV. We were really happy, but then the TV and lights went off. Electricity went off in our town. I went to turn on the light, but it wasn't working. We didn't pay attention to that and went to sleep, because we thought that it will work in the morning.

I woke up in the middle of the night. I tried to sleep, but I couldn't, so I went down the stairs and saw gifts under the Christmas tree and then I heard someone climbing the chimney. I went closer it and saw a red coat. Then this creature started sneezing.

That sneezing was so bad that he fell down. I was so curious and surprised to see Santa Claus.

He looked at me I started asking so many questions, but he didn't my language.
Santa Claus told me that he had to travel all around the world to give all the kids their presents so he jumped back to my chimney and flew away. I came back to my bed.
In the morning everything was like always. Did I have a dream?

I wish you a Merry Christmas, don't get cold, and get good grades, listen to your parents, and help them!

Elves in the forest

There were three elves in the forest. One was named Teo second was named Mike and the third was named Rob. The problem was that the past four weeks they wasn't normal. They became strange. Mike was eating Teo's clothes, Teo was sleeping all day long and Rob was drinking twenty cups of water per day.

When Mr. Claus got the note that the elves got crazy he knew he have special elixir for elves to be normal. Then he came to his mysterious room, got the elixir and flew to elves with his old sledge.

He landed on the ground in the snowy forest and went to the elves house. He made a cup of tea and poured some elixir. He gave the elves cups of tea and they drank that. After one hour Teo, Mike and Rob got normal again. Nobody knew what happened to elves earlier but the most important thing was that the elves were very friendly and helpful again.

I wish you very happy holiday.
